SUBJECT INDEX

A

Accident insurance, 161
Accidents, industrial, methods used to reduce loss in, 326 (Edit.)
Acclimatization response to prolonged hypoxia, 415 (Rev.)
Achondroplasia, 544
Acute hypoxia, pathologic changes resulting from, 399
leukemia, treatment of, 455 (Edit.)
psychologic disturbances in the course of hospitalization of patients with chronic illness, 111
Addison's disease, 82 (Rev.)
Adrenocortical-active therapy, statistical evaluation of effect in nephrosis of childhood, 640
Advances in internal medicine, 334 (B. rev.)
Afibrinogenemia, 86 (Rev.)
Agammaglobulinemia, 87 (Rev.)
Age, variation of basal respiration with, 301
Aged, long-term medical care of, 101 (Edit.)
neurologic changes in, 459
persons, normal, neurologic signs of, 461
Agenesis of corpus callosum, 53 (Rev.)
Aging and structural alterations in the nervous system, 575
drug effects modified by, 567
relation of brain metabolism to, 487
of human cerebral blood flow and oxygen consumption to, 478
Albers-Schoenberg's disease (*see* Osteopetrosis)
Albinism, 88 (Rev.)
Alimentary tract, congenital duplications of, 68 (Rev.)
malformations of, in etiology of chronic diseases, 66 (Rev.)
Alkaptonuria, 88 (Rev.)
Amputees, rehabilitation of, 327 (Edit.)
Anemia, Benjamin's, 84 (Rev.)
Cooley's or Mediterranean (*see* Thalassemia)
Aneurysm, aorta, dissecting, in Ehlers-Danlos syndrome, 15
Aneurysms, arteriovenous, 63 (Rev.)
intracranial, 65 (Rev.)
Angioid streaks in pseudoxanthoma elasticum, 265
Anhidrotic ectodermal dysplasia, 76 (Rev.)
Announcements:
Courses in various aspects of diabetes, 232
Forthcoming symposium numbers, 1956, 337
New members of Editorial Board, 233
Annuities, 161
Anomalies, congenital, role of in etiology of chronic diseases, 46 (Rev.)
Anterior and posterior wall infarction of the heart: statistical comparison based on autopsy findings, 610
infarcts, accuracy of clinical diagnosis of, 613
Anticoagulants, present status of, 448, 451 (Edits.)
Antistreptolysin O test in rheumatic fever, 149
Anus, imperforate, 67 (Rev.)
Aorta, coarctation of, 63 (Rev.)
dissecting aneurysm of, in Ehlers-Danlos syndrome, 15
Arachnodactyly, 47 (*see* Marfan's syndrome)
Arterial changes, peripheral, in pseudoxanthoma elasticum, 265
hypertension, severe, treatment with pentolinium, 597
pulse wave, studies: normal pulse wave and its modification in presence of human arteriosclerosis, 618
Arteriosclerosis, effect on normal arterial pulse wave, 618
Arteriovenous aneurysms, 63 (Rev.)
Arteritis, giant-cell, 472
Arthritis and rheumatism, measurement of prevalence of, from interview data, 134
Arthrogryposis multiplex, 55 (Rev.)
Asthma, bronchial, prognosis in, 34, 107 (Edit.)
study of mortality among patients discharged during years 1917-1936 from Oslo City Hospital, 34
main cause of death in, 37
mortality by age, 38
by sex, 38.

B

Bacteriology of brucellosis, 203
Basal respiration, variation with age, 301
Benjamin's anemia, 84 (Rev.)
Bibliography of internal medicine: Brucellosis, 203
Biologic false positivity, chronic, in cerebrospinal fluid, 390
Blood flow, human cerebral, and oxygen consumption as related to aging, 478
in brucellosis, 203
malformations and defects in etiology of chronic diseases, 83 (Rev.)
Blue Cross insurance plans, 155
sclerotics in osteogenesis imperfecta, 186
Shield insurance plans, 156
Body area in relation to drug effects, 571
weight in relation to drug effects, 571

Brailsford-Morquio syndrome, 383
Brain, gross changes with aging, 576
metabolism in relation to aging, 487
Bronchial asthma, prognosis in, 34, 107 (Edit.)
study of mortality among patients discharged during years 1917-1936 from Oslo City Hospital, 34
Brucellosis, bibliography of internal medicine:
bacteriology of, 203
blood in, 203
chronic or ambulatory form, 204
clinical aspects of, 204
diagnosis of, 204
epidemiology of, 204
immunology of, 204
mode of infection with, 204
pathology of, 204
relation of cattle to, 203
serum diagnosis of, 204
treatment of, 204

C

Caput membranaceum in osteogenesis imperfecta, 182
Cardiac hypertrophy and hypertension in anterior and posterior wall infarctions, 616
Cardiovascular malformations in etiology of chronic diseases, 60 (Rev.)
manifestations of Hurler syndrome, 375
Catastrophic illness insurance, 349
Cattle and men, 658 (B. rec.)
relation to brucellosis, 203
Central retinal vein occlusion in juvenile diabetes, 253
Cerebral blood flow, human, and oxygen consumption as related to aging, 478
palsy, 54 (Rev.)
Cerebrospinal fluid, chronic biologic false positivity in, 390
Treponema pallidum immobilization test in, 390
Chemical and reflex control of respiration, 418 (Rev.)
Childhood, nephrosis of, statistical evaluation of effect of adrenocortical-active therapy in, 640
Chondrodystrophy, 58 (Rev.)
Chorea, senile, 472
Chronic biologic false positivity in cerebrospinal fluid, 390
diseases, role of congenital anomalies in etiology of, 46 (Rev.)
study of hypnotic drugs in patients with, 122
illness, acute psychologic disturbances in course of hospitalization in patients with, 111
and insurance concept, 25
Cirrhosis, Laennec's, relation of nutrition to etiology and treatment of, 560 (Edit.)
Cleft palate, 67 (Rev.)
Cleidocranial dysostosis, 59 (Rev.), 544
Clinical care of the diabetic, 335 (B. rev.)
Clubfoot, 55 (Rev.)
Coarctation of aorta, 63 (Rev.)
Cobalt^{60}-labeled vitamin B_{12}, 234
Co-insurance, 32
Colon, congenital atresias of, 68 (Rev.)
polyposis of, 69 (Rev.)
Congenital anomalies, role in etiology of chronic diseases, 46 (Rev.)
defects of hypothalamus, 79 (Rev.)
facial diplegia, 55 (Rev.)
heart disease, 60 (Rev.)
hernias, 70 (Rev.)
megacolon, 69 (Rev.) (*see* Hirschsprung's disease)
porphyria, 90
pulmonary cysts, 66 (Rev.)
torticollis, 55 (Rev.)
Connective tissue, heritable disorders of, 2, 180, 263, 360, 521
Cooley's anemia (*see* Thalassemia)
Coronary heart disease, announcement of symposium 338
Corpus callosum, agenesis of, 53 (Rev.)
Costen's syndrome, 285
Craniostenosis, 50 (Rev.)
C-reactive protein compared with erythrocyte sedimentation rate and diphenylamine reaction in rheumatic fever, 140
Cretinism, 50, 78 (Rev.)
CRP (*see* C-reactive protein)
Cutaneous hereditary hemorrhagic telangiectases, 75 (Rev.)
Cutis laxa, 77 (*see also* Ehlers-Danlos syndrome)
Cystic fibrosis of pancreas, 66, 70 (Rev.)
Cystinosis, 89 (Rev.)
Cystinuria, 88 (Rev.)
Cytoplasm of nerve cells, changes in with aging, 580

D

Deafness in Hurler syndrome, 371
Death, main causes of, in asthma, 37
DeQuervain's disease, 563 (Edit.)
Dermatologie der Mundhöle und der Mundumgebung, 658 (B. rec.)
Diabetes and obesity in anterior and posterior wall infarctions, 616
announcement of courses in various aspects of, 232
juvenile, central retinal vein occlusion in, 253
Diabetic, clinical care of, 335 (B. rev.)
retinopathy and retinal vein occlusion, pathogenic relationship between, 253
Diaphragmatic hernia in Ehlers-Danlos syndrome, 10
Differential diagnosis: The interpretation of clinical evidence, 658 (B. rev.)
Diphenylamine reaction as index of inflammation, further observations on, 140
compared with erythrocyte sedimentation rate and C-reactive protein in rheumatic fever, 140

VOL. 3 1956

Disability, concept of, 167
etiologic factors in, 168
insurance protection against loss of income because of, 159
principles of management of, 172
social and cultural influences in, 169
Dissecting aneurysm of aorta in Ehlers-Danlos syndrome, 15
DPA reaction (*see* Diphenylamine reaction)
Drug effects as modified by aging, 567
by body area and weight, 571
Drugs, hypnotic, side effects of, 130
Ductus arteriosus, patent, 61 (Rev.)
Dupuytren's contracture, 545
Dwarfism in Hurler syndrome, 361
Dysostosis multiplex (*see* Hurler syndrome)

E

Ear in osteogenesis imperfecta, 187
malformations in etiology of chronic diseases, 56 (Rev.)
Earache in temporomandibular joint pain-dysfunction syndrome, 285
Ectodermal dysplasia, anhidrotic, 76 (Rev.)
Editorial Board, announcement of new members, 233
Ehlers-Danlos syndrome (*see also* Cutis laxa)
basic defect, 17
clinical manifestations, 6
historical note, 2
incidence and inheritance, 18
miscellaneous considerations, 19
pathology, 17
Elderly patient with pinned fracture of hip, rehabilitation of, 311
Ellis-van Creveld syndrome, 545
Emphysema, pulmonary (*see* Pulmonary emphysema)
Enchondromatosis, multiple, 543
Endocrine disorders in etiology of chronic diseases, 78 (Rev.)
Epidemiology of brucellosis, 204
Epidermolysis bullosa, 77 (Rev.)
Epilepsy, senile, 472
Equanil (*see* Meprobamate)
Erythrocyte sedimentation rate, compared with C-reactive protein and diphenylamine reactions in rheumatic fever, 140
Esophageal atresia, 67 (Rev.)
ESR (*see* Erythrocyte sedimentation rate)
Essential thrombocytopenic purpura, 96 (Rev.)
Etiology of chronic diseases, role of congenital anomalies in, 46 (Rev.)
Eye in osteogenesis imperfecta, 186
in pseudoxanthoma elasticum, 265
malformations of, in etiology of chronic diseases, 56 (Rev.)

F

Facial diplegia, congenital, 55 (Rev.)
Familial amaurotic idiocy, 51 (Rev.)
hyperlipemia, 90 (Rev.)
Fears, rational and irrational, in chronic illness, 118
Federal vocational rehabilitation program, progress and future plans of, 318 (Edit.)
Fibrodysplasia, ossificans progressiva, 522
basic defect, 529
clinical manifestations, 523
incidence and inheritance, 529
pathology, 529
Follow-up study of tuberculosis in former student nurses: methods of locating and obtaining information from study population of 25,752, 499
the long, 104 (Edit.)
Fracture of hip, pinned, rehabilitation of elderly patient with, 311
Fragilitas ossium (*see* Osteogenesis imperfecta)
Friedreich's ataxia, 53 (Rev.)
Froehlich's syndrome, 79 (Rev.)
Fund raising for medical purposes: specific diseases versus medical education, 226 (Edit.)

G

Gait, senile disorders of, 469
Galactosemia, 89 (Rev.)
Gargoylism, 60 (Rev.) (*see also* Hurler syndrome)
Gastrointestinal hemorrhage in pseudoxanthoma elasticum, 270
Gaucher's disease, 51 (Rev.)
Giant-cell arteritis, 472
Glomerulonephritis, announcement of symposium, 338
Glucose tolerance tests in ambulatory patients over 40 years of age, 294
Glycogen storage disease, 89 (Rev.)
Glycosuria and hyperglycemia after ingestion of glucose by ambulatory patients over 40 years of age, 294
Goats, relation to Malta fever, 204
Growth trends in hospital, surgical, and regular medical expense insurance coverage, 158

H

Harelip, 67 (Rev.)
Health catastrophe insurance, 349
insurance, contribution of voluntary, 25, 154, 349
voluntary (*see* Voluntary health insurance)
Heart, anterior and posterior wall infarction: statistical comparison based on autopsy findings, 610
